В данном документе я собрал по своему мнению лучшие проектные работы мобильных приложений.
Тут вы увидите 3 презентации - банк, приложение для покупки авиа билетов и приложение для спорта.

Все работы выполнины мной, в качестве докозательства ниже прикрепляю ссылку на основное портфолио.

BRAND	POWERED BY	PUBLICATION DATE	MADE WITH
Airfly	Maksim Novikov	6 SEPTEMBER, 2023	♥

Booking your flights has never been this convenient. Airfly offers real-time flight information, including availability, prices, and seat choices.

ABOUT PROJECT

At Airfly, we're passionate about simplifying your air travel experience. Our mission is to make flight booking, travel planning, and managing your trips effortless and enjoyable.

Airfly, envisions a world where travel is a source of joy and inspiration, not stress. We're committed to evolving and innovating to provide you with the best possible travel solutions. Join us in making your travel dreams a reality.

Welcome to Airfly, where every journey begins with ease and excitement. Feel free to modify and expand upon this text to fit the specific message and branding of your flight app, Airfly.

Features

01

Airflys smart search engine helps you find the best flights quickly and effortlessly.

02

Say goodbye to FOMO (Fear of Missing Out). Airfly keeps an eye on flight prices.

03

Book your flights, hotels, and car rentals all in one place, streamlining your travel.

04

Access your trip details, boarding passes, and reservation confirmations.

05

Travel planning can be overwhelming, with numerous flight options, price fluctuations.

06

Stay informed with real-time flight updates, gate changes, and delays.

LOGO

Airflys design is a harmonious blend of aesthetics and functionality. The app features a modern, user-centric design with a calming color scheme that evokes a sense of trust and reliability

Airfly

With Airfly, the world is at your fingertips. Discover flights to your dream destinations and compare prices from multiple airlines.

SEAMLESS BOOKING

Book your flights, hotels, and car rentals all in one place, streamlining your travel arrangements. Whether you're planning a quick getaway or a long-haul adventure, our user-friendly interface allows you to find, compare, and book flights with ease.

MAIN TASKS & CHALLENGES

Airfly design is a harmonious blend of aesthetics and functionality. The app features a modern, user-centric design with a calming color scheme that evokes a sense of trust and reliability. Thoughtful use of white space ensures a clutter-free experience, allowing users to focus on what matters most: their travel plans.

Simple

As a frequent traveler, Airfly has become my go-to app. It keeps all my travel information organized and easily accessible.

Comfortable UX

Whether you're a frequent jet-setter or an occasional traveler, Airfly is your ticket to stress-free travel. Download Airfly today and start exploring the world.

Elegant

At the heart of Airfly's elegance is its commitment to simplicity. We believe that the most elegant solutions are often the simplest.

Safety and security are paramount when it comes to air travel, and Airfly takes them seriously. We provide real-time updates on flight statuses, delays.

UI

Travel planning can be overwhelming, with numerous flight options, price fluctuations, and the need to juggle multiple apps for different aspects of your trip.

INTUITIVE FLIGHT SEARCH

Airtix's smart search engine helps you find the best flights quickly and effortlessly. Filter by price, airline, layovers, and more to customize your journey.

Thoughtful use of white space ensures a clutter-free experience, allowing users to focus on what matters most: their travel plans.

FLIGHT ALERTS

Stay informed with real-time flight updates, gate changes, and delays, ensuring a smooth travel experience. Access your trip details, boarding passes, and reservation confirmations in a single organized itinerary.

DARK UI

In the realm of app design, dark user interfaces have an undeniable allure. Airfly's Dark UI takes this concept to the next level by seamlessly blending elegance and functionality. Our choice of a dark color scheme not only exudes a sense of refinement but also offers practical benefits.

Join the millions of travelers who have chosen Airfly as their go-to travel app. Start your journey with Airtix today!

Strive

Trainers and clients' app

Improve your training. Achieve your goals easier now

Build your personal workout plans, nutrition, and get reminders in time.

Problems & Solutions

Project overview

Personal management of the client, creating a workout and nutrition plan according to the needs of each client, where both can track the progress of goals.

Problems & Solutions

Lack of data / Data loss / Forgetting to complete tasks

The lack of data to make effective analysis of the client's goals. Journals with planned workouts and notes are often lost or unusable. Clients often forget to fill in and attach the required information.

Easy, fast analysis / Flexibility / Functionality

Quickly view data on dashboard. Workouts creation and managing. Notification preset for quick reminders about important tasks to complete.

User studies

Empathize phase

Modeling of proto-persona

Out of 87% of respondents take lessons with trainers because they want to get the maximum result and receive feedback after every workout.

8 respondents took part in the survey with an average age of 27 y. o.

Project phases

Analysis, wireframing & visualization

The overall strategy integrates in a coherent and logical way, ensuring an effective address of the research problem.

Navigation

User flow

Scheme to minimize misunderstandings and speed up the work process. This stage built a better understanding of the user experience architecture.

Basic structure

Wireframing

The carcass of the app shows the general visualization of how and in which direction to develop a future application.

Colours

Colour palette

A light palette of colors was chosen with two primary colours (saturated green and blue).

#619B17

#016EED

#1B1B1B

#9FCCED

#CADAE7

#ECF6FE

#EAF8E0

Grids system

To accurately organize and set up all interface elements needed a 6*20*12 frame grid system size was built.

Font

Neue Montreal

Grotesque / display

This timeless Sans was inspired by what makes Montreal the great design city it is today, from the Expo 67 to its contemporary effervescent design scene.

Regular / medium / bold

Complete with 14 weights (7 Uprights, 7 Italics) and a slightly tighter kerning including Cyrillic support. During working on this project I used three weights.

Clients

Clients interface

Quick access to the primary information located on the dashboard with opportunity to dive deeper into analytical reports.

Summary:
(Clients interface in use)

The application is oriented so that the clients can achieve their goals as much as possible. It's aimed at doing their training easily and clearly.

Trainers

App as a tool for trainers

Personal management of the client. Creation of workout plan and nutrition according to the needs of each client, where both can track the progress of goals.

Calendar.
Functionalities.

Scheduling & notifications;

Creating and editing events;
(fast access, planning).

Training

Workout. Personal plan

The functionality of the application will help the coach to create an efficient workout.

Communication

Messenger. Interaction.
Direct communication and notifications which are built-in like presets in messenger, make the interaction between trainer & client efficient.
