Dear team

I have the pleasure to share with you my portfolio. It illustrates my work today. I hope you will see in it my attention to details, my workforce and above all my determination to continue in this sphere.

The skills I have already learned through my own experience and projects (with other artists who are already exhibited) is the first step of my possibilities that will improve with my studies in your university.

I would like to develop projects where my human point of view behind the camera helps to share to the world simple emotions that are most needed today. I am sure that in our world images play a strong convincing part in multiple aspects.

That is why I am convinced images plays a role in all mission of our university. A human, social, artistic, and even politic functions.

My work today has an ambition of aesthetic simplicity while sharing how our country is. I hope it will help people better understand each other's.

I thanks you for your attention and I would be happy to be in touch very soon.

Nastassia
