

Dear Members of the Admission Committee,

In this brief portfolio, I have compiled a selection of recent projects I completed over the past year. Each project is directly related to the master's program I am applying for and aligns with the values of the university.

Thank you for your consideration!

Kindest regards,
Dziyana Trafimava

therapy and coaching certification

In 2023, I completed my training as a therapist and coach (by ICTA standards).

I'm working individually and in groups with women only. My practice addresses women's socialization experiences, gender / identity requests and social roles. My practice creates safe spaces for women to deconstruct heterosexist and capitalist ideas and to better understand their experiences.

I charge a small fee for my consultations, and I regularly offer free sessions so that women from different financial backgrounds can access my services.

Enneagram Practitioner

В ПРОГРАММЕ КУРСА:

- история и структура Энеаграммы
- три центра Энеаграммы
- 9 типов Энеаграммы и их бессознательные мотивации
- социальные стили и гармонические группы
- стратегии развития и Сущностные состояния типов

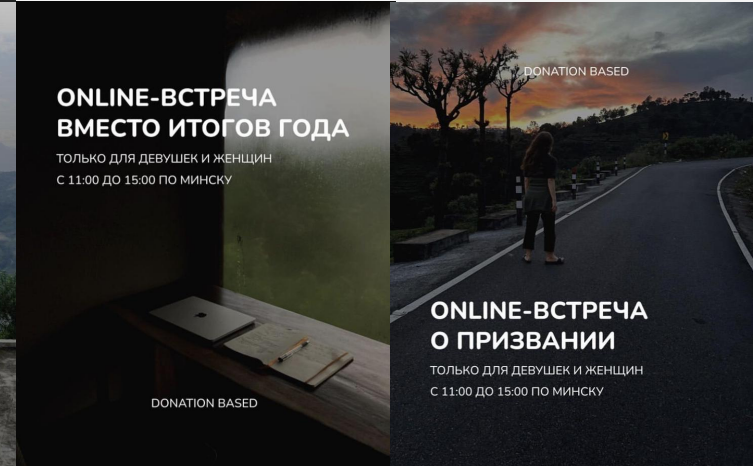

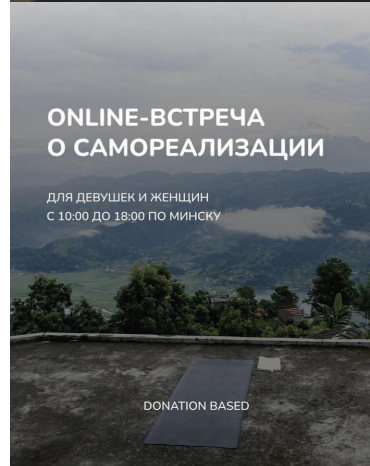

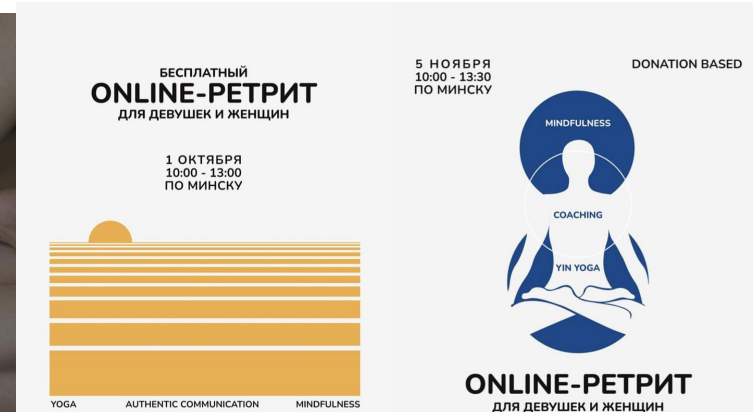

donation based online meetings and retreats for women only

In 2023 and early 2024, I organized and conducted a series of free or donation-based online meetings and retreats for women.

These events focused on different types of crises, self-realization, year-end reflections, and restoring inner resources. These sessions provided safe and supportive spaces for women to explore their socialization experiences, fostering personal growth and critical thinking.

I managed all these events independently from scratch: developing the concept and content plan for social media promotion, designing and communicating with participants, working with lecturers, and handling all other organizational tasks. As a result, over this period, more than 100 women participated in my events.

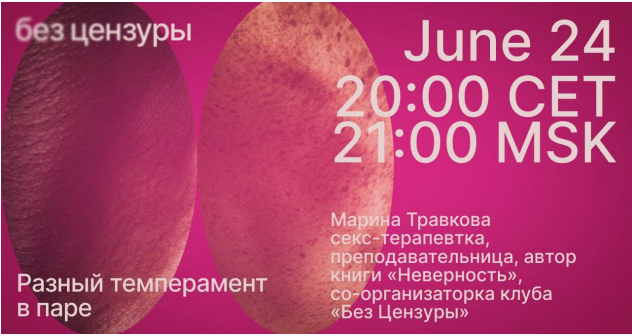

other work

Since 2024, I have been working as a project manager at «UNCENSORD,» a scientific-practical conference and community of professionals in the field of sexuality.

We organize online seminars and conferences, as well as offline events and retreats for helping professionals from our region.

This activity fosters critical discourse, promotes inclusive and comprehensive education, and supports the development of civil society, aligning with the mission and values of the European Humanities University.

My work aligns seamlessly with the mission and values of the European Humanities University. By fostering personal growth, critical thinking, and inclusive education, I contribute to the development of civil society.

My activities support EHU's dedication to gender studies, encouraging democratic attitudes and comprehensive personal development while promoting understanding and support in the fields of gender and sexuality. Moreover, my experience in creating and managing complex inclusive projects, conferences and lectures shows my ability to turn theory into practice and vice versa - learn from practical experience and theorise it.

Thank you for your consideration!

Kindest regards,
Dziyana Trafimava
