Logo development

The logo is one of the most important elements volume of visual communications, in which laid the key branded characteristics style.

Main font
Britannic Bold

A B C d e f 1 2 3

Additional font
Bell MT

A B C d e f 1 2 3

It is forbidden to deform the logo, distort the proportions its constituent elements, detach the elements from each other. it is unacceptable to spread the sign and the text part.

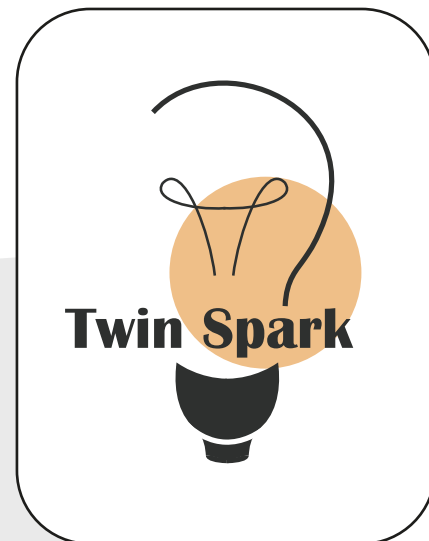

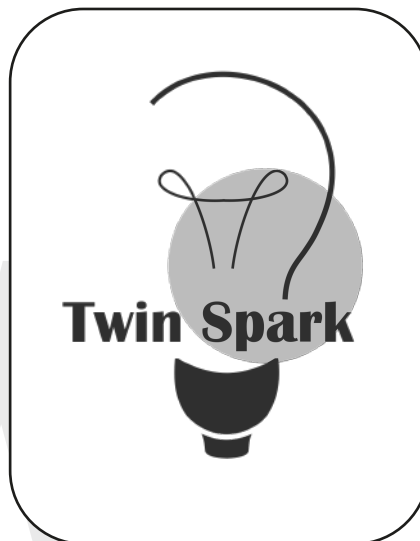

An important role in the perception of the logo is played by the space surrounding it. To prevent congestion of the space around the logo other graphic elements there is free space.

The base unit of measure (1x) is the height of the letter p

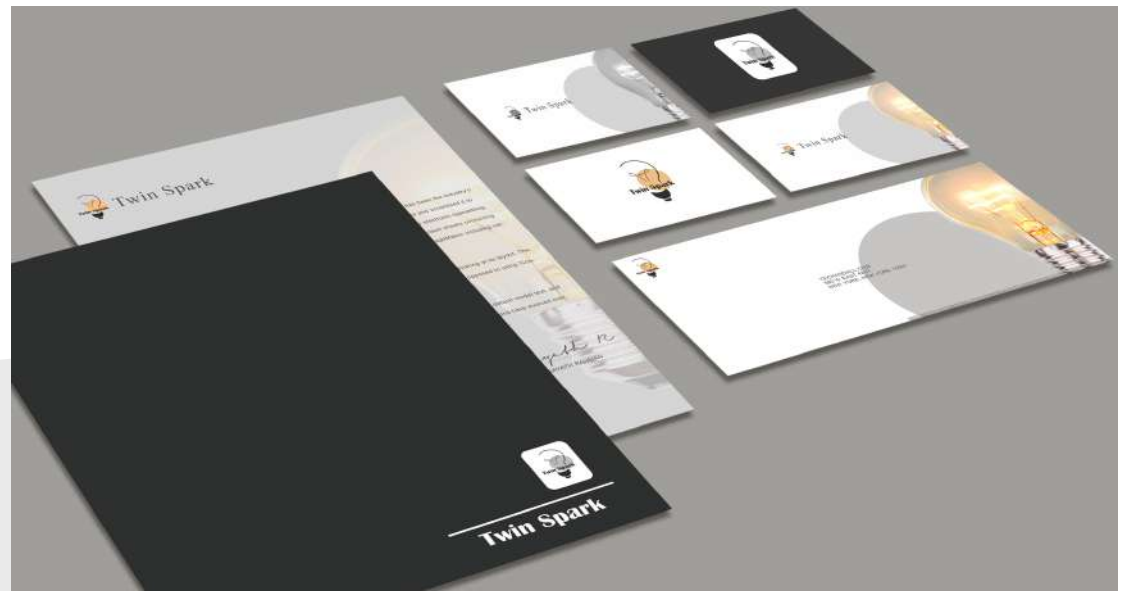

Choose the right lightning for yor home

company key phrase

The monochrome version is used when when full color printing is not possible (for example, when designing layouts for newspapers, faxes, b/w documents).
