Research Projects

Cultural integration among indigenous peoples in Chittagong hill tracts, Bangladesh. (Studied for 6 months, graduation monograph)

The purpose of this study was to investigate how indigenous people in this area felt about their experiences with, attitudes toward, and effects of cultural integration. This paper is currently undergoing the publication process in a peer-reviewed journal.

A Comprehensive Study on Career Planning of Noakhali Science and Technology University.

To find out what university students are selecting their career for their livelihood and motivating factors that prompt them to accept a job in an organization and also the type of training they are going through to reach their goal.

Experience:

Research Enumerator at Center for People and Environ from 4th March 2024 to 25th March 2024

Worked in “Climate change impacts and priority adaptation measures for selected urban areas in Bangladesh” project.

My responsibilities primarily revolved around conducting comprehensive data collection activities in Chattogram, Cox's Bazar, and Rangamati districts. These activities included administering surveys, conducting interviews, and making detailed observations, all aimed at gathering primary data crucial for research purposes.

Additionally, I undertook the task of collecting water samples from each area while ensuring data accuracy and completeness.

REF: Letter of Recommendation for Jams Wath Chakma

I am very much pleased to recommend Jams Wath Chakma for his Masters admission and scholarship application. I had the pleasure of teaching him for almost the last five years in six courses in the Department of Sociology at Noakhali Science and Technology University which is one of the reputed public Universities of Bangladesh. As his mentor in most of the courses of Sociology, I found Jams as a student who was always keen to learn new things and hence was curious about studying further.

Recently, through his diligence, competence, focus and dedication towards achieving the goal of learning, Jams has successfully accomplished his Bachelor degree of Social Science from the department of Sociology. He has the capability, motivation, intention and potential to work up to the level to achieve the intended learning targets. Jams is also sincere, disciplined, punctual, cooperative, responsible and industrious in handling obstacles in his learning goals.

While teaching Jams for the last five years, I found him as a very struggling and diligent student in meeting his learning query. I ardently recommend for his Masters admission with scholarship. I believe that scholarship is a kind of financial help to fulfil the dreams of many students who are struggling financially with a desire for higher studies like Jams. Jams deserves to study further in the University of his preference, and this scholarship will help him to do so. I believe that Jams will be successful in every step he is intended to take further in his life.

Feel free to contact me at shahanarahman.soc@nstu.edu.bd if you would like me to elaborate on any of Jams's capabilities and achievements.

Thanking you

REF: Letter of Recommendation for Jams Wath

It is my pleasure to write a few words on the capacity of Jams Wath, one of my students I taught in the Department of Sociology at the Noakhali Science and Technology University. Jams is known to me for more than 5 years. As a supervisor, I have had an opportunity to observe the student's interest and collaboration in research. I was impressed by his depth understanding and knowledge on Social Science Research. I have found him full of passion and diligence in his work. He always delivers quality work and keeps up with the timelines set by the course teachers and research supervisor.

Jams completed his Bachelor (Hons.) from one of the reputed University (Noakhali Science and Technology University) of Bangladesh. He is hardworking, studious, intelligent, sincere, and a very lively person. Jams's knowledge of English is excellent. As far as Jams's ability in conducting a research is concerned I do not have any doubt that he can conduct a research in a team and independently.

In case, the organization wants me to elaborate on any specific information with respect to my engagement with him, please feel free to get in touch.

Thanking you
