

In my pursuit of new creative endeavors, I was excited to find that the application has been prolonged as for the last couple of years I was considering EHU as my top priority to apply for bachelors.

I was excited to see that your needs and mission are matching my life goals as I am the one from Belarus being eager to experience the better.

As the liberal mentality was something I used to struggle for while being a student.

If not that much openly though, then through my art mostly.

As well as being a part of EYP, ZBS union and ASL as part of it.

As a progressive professional artist with my own styling expertise and first of all basic knowledge of composition and design I developed my own perspective of seeing things.

I believe that I can bring valuable contributions to EHU with my own view as I am so conscious of applying to a bachelor degree after a couple of years studying humanitarian disciplines in Belarus and then having a couple of gap years while traveling and gaining life experience.

I have also taught English and my work experience with people, languages as well as my own practice is 4 years already.

In the past, I have designed dynamic pieces describing my trips around Asia and all around the globe.

It has been a huge development of my personality to work with different nationalities and mentalities.

I run my own project that is not commercial hence it's just a soul satisfaction for me.

That you can examine through my instagram art page @aplacaitart for a greater understanding of my background and views of my designs.

Please review it for a deeper look at my work history and accomplishments.

I take my inspiration from multiple sources all around the globe, these varying concepts making my pieces unique, daring and captivating.

My philosophy is introducing fresh perspectives and new techniques so the creative environment is growing intensely.

In my artist role, my successes have stemmed from essential skills to what we call surrealism and others.

And this start made me easy going, collaborative, full of optimism to change the world and myself for the better.

My experience also made me think I am able to facilitate a positive impact in the art world.

I greatly appreciate your consideration.

Thank you for your time,

Alena Kamarova
